SRI SIVANI COLLEGE OF PHARMACY

CHILAKAPALEM, SRILAKSHMIPURAM

About College:

Sri Sivani College of Pharmacy was established by the Sri Sivani Educational Society in 2007, led by highly motivated and philanthropic individuals with a vision for meticulous planning and commitment to the upliftment of professional education in rural areas of Srikakulam district, Andhra Pradesh.

The campus is spread across 2.56 acres of pollution-free, picturesque, lush green surroundings, creating the right ambiance and conducive environment for quality education and research.

The institute infrastructure includes well-equipped laboratories, a well-stocked library, spacious lecture halls, separate hostels for boys and girls, a canteen, a generous playground, computer lab. A regular bus service facilitates easy transportation for students between the campus and the city.

COURSES OFFERED :-

About Program:

Faculty Development Program plays a crucial role in enhancing the quality of education by providing educators with opportunities to update their knowledge, teaching methodologies, and skills. FDP offer a platform for faculty members to engage in continuous learning, exchange ideas, and stay updated with the latest advancements in their respective fields. By participating in FDPs, educators can refine their teaching techniques, incorporate innovative approaches, and promote interactive and student-centered learning environments.

Eligibility: The course is open to faculties of Pharmacy colleges approved by PCI with any specialization. Industrialists and scientists also eligible for FDP.

Objectives of Programme :

This One Week Faculty Development Program aims to provide participants with a comprehensive understanding of bioactive compounds derived from natural sources. The program will cover various aspects of extraction, isolation, characterization, and applications of bioactive compounds in pharmaceuticals, nutraceuticals, agriculture, and environmental sustainability. Participants will also learn about the utilization of bioinformatics tools in predicting bioactive compounds. By the end of the program, participants will be equipped with the knowledge and skills to incorporate bioactive compound exploration into their teaching and research activities, fostering interdisciplinary collaboration and enhancing the quality of education and research.

Topics to be Covered:

Day 1: Introduction to Bioactive Compounds and Natural Sources

Day 2: Techniques for Extraction and Isolation of Bioactive Compounds

Day 3: Characterization Methods for Bioactive Compounds

Day 4: Applications of Bioactive Compounds in Pharmaceuticals and Nutraceuticals

Day 5: Bioactive Compounds in Agriculture and Environmental Sustainability

Day 6: Bioinformatics Tools for Predicting Bioactive Compounds

Topics Covered:

Day 1: Introduction to Bioactive Compounds and Natural Sources

Day 2: Techniques for Extraction and Isolation of Bioactive Compounds

Day 3: Characterization Methods for Bioactive Compounds

Day 4: Applications of Bioactive Compounds in Pharmaceuticals and Nutraceuticals

Day 5: Bioactive Compounds in Agriculture and Environmental Sustainability

Day 6: Bioinformatics Tools for Predicting Bioactive Compounds

Keynote Speaker: Dr.P. Chiranjeevi

Keynote Speaker: Dr. K. Atchuta Kumar

Outcomes of Programme:

- Gain insights into the diversity and significance of bioactive compounds from natural sources.
- Learn various extraction, isolation, and characterization techniques used in bioactive compound research.
- Understand the applications of bioactive compounds in pharmaceutical and nutraceutical industries.
- Explore the role of bioactive compounds in promoting sustainable agriculture and environmental preservation.
- Acquire proficiency in utilizing bioinformatics tools for predicting and analysing bioactive compounds.
- Network with fellow educators and researchers, fostering collaborations for future projects.
- Enhance research capabilities in the field of bioactive compound exploration.

Objectives of Programme:

This One Week Faculty Development Program aims to provide participants with a comprehensive understanding of various pharmacological screening techniques employed in drug discovery. Participants will gain insights into both in vitro and in vivo methods, learn about high-throughput screening and computational approaches, understand safety assessment and toxicity testing, and explore emerging trends in the field. By the end of the program, participants will be equipped with the knowledge and skills to effectively teach and conduct research in pharmacological screening techniques, contributing to advancements in drug development and biomedical sciences.

Topics Covered:

Day 1: Introduction to Pharmacological Screening Techniques and Importance in Drug Discovery.
Day 2: In vitro Screening Techniques: Cell-based Assays and Receptor Binding Assays.
Day 3: In vivo Screening Techniques: Animal Models and Experimental Design.
Day 4: High-Throughput Screening (HTS) and Automation in Pharmacological Testing.
Day 5: Safety Assessment and Toxicity Testing in Drug Development.

Programme Co-Ordinator:

Mrs. D. PRIYADARSHINI

M. Pharm, (Ph.D)

Asst. Professor

Objectives of Programme:

This One Week Faculty Development Program aims to provide participants with a comprehensive understanding of various pharmacological screening techniques employed in drug discovery. Participants will gain insights into both in vitro and in vivo methods, learn about high-throughput screening and computational approaches, understand safety assessment and toxicity testing, and explore emerging trends in the field. By the end of the program, participants will be equipped with the knowledge and skills to effectively teach and conduct research in pharmacological screening techniques, contributing to advancements in drug development and biomedical sciences

Topics Covered:

Day 1: Introduction to Pharmacological Screening Techniques and Importance in Drug Discovery.

Day 2: In vitro Screening Techniques: Cell-based Assays and Receptor Binding Assays.

Day 3: In vivo Screening Techniques: Animal Models and Experimental Design.

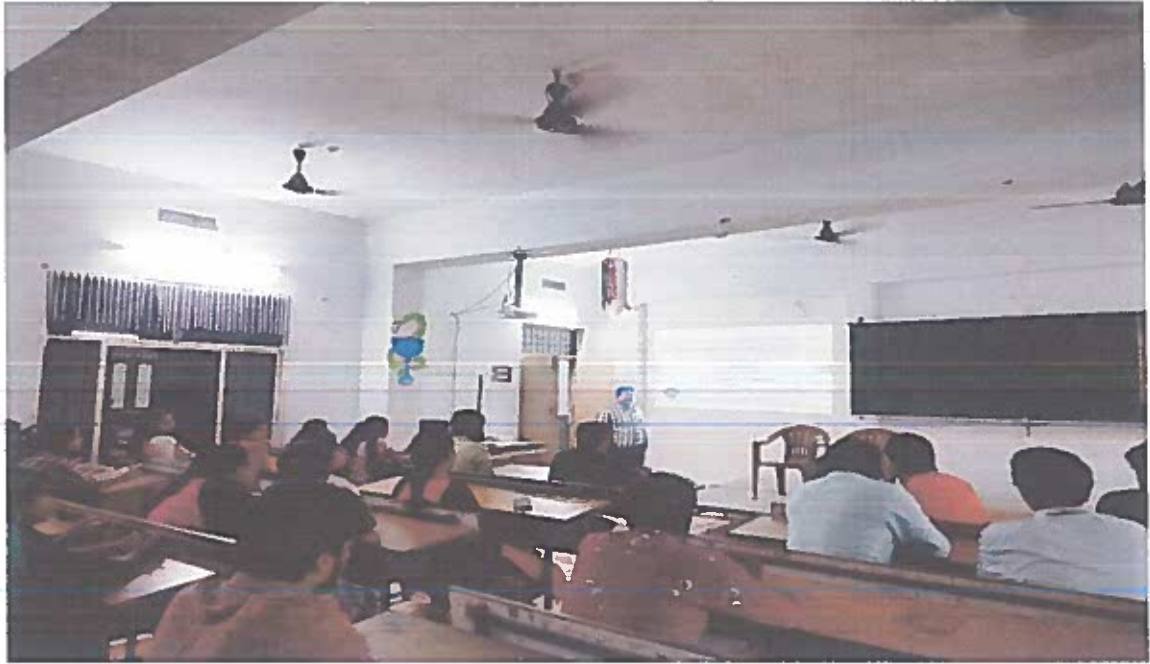

Day 4: High-Throughput Screening (HTS) and Automation in Pharmacological Testing.

Day 5: Safety Assessment and Toxicity Testing in Drug Development.

Day 6: Data Analysis, Interpretation, and Future Trends in Pharmacological Screening.

Keynote Speaker: Dr. K. Rajesh

Keynote Speaker: Dr. Santosh Kumar Ranajit

Outcomes of Programme:

The Faculty Development Program will empower participants with a deepened understanding of pharmacological screening techniques and their applications, enabling them to enhance their teaching capabilities in pharmaceutical sciences. Participants will be able to design and implement effective screening assays, critically analyze and interpret screening data, and make informed decisions regarding drug efficacy and safety. This program will foster networking among educators, researchers, and practitioners, promoting collaborative research efforts in pharmacology. Ultimately, the FDP's outcomes will translate into improved drug discovery processes, leading to the development of safer and more effective therapeutic interventions for various diseases.

--	---

Topics Covered:

Day 1: Effective Chemical Handling

Session 1: Introduction to Chemical Handling (10:00 AM - 10:30 AM)

- Welcome and program overview

Session 2: Chemical Hazard Identification (10:45 AM - 12:00 PM)

- Importance of chemical safety
- Common chemicals in the workplace
- Identifying chemical hazards
- Material Safety Data Sheets (MSDS)

Lunch Break (12:00 PM - 1:00 PM)

Session 3: Safe Chemical Handling Practices (1:00 PM - 2:30 PM)

- Personal protective equipment (PPE)
- Safe storage and transportation
- Emergency response procedures

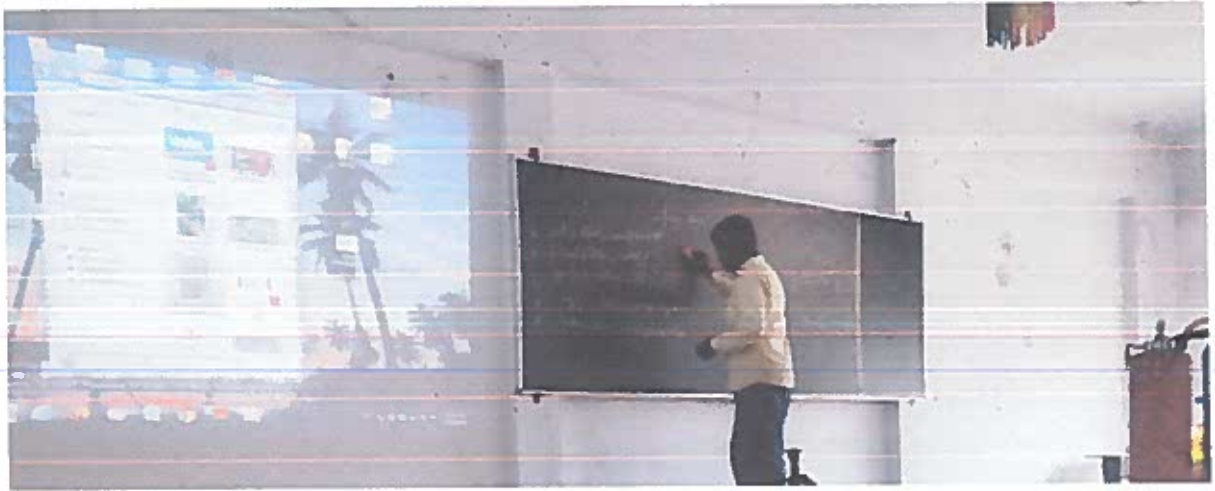

Session 4: Hands-on Chemical Handling (2:45 PM - 5:00 PM)

- Practical demonstration of chemical handling
- Participants practice safe handling techniques

Objective of the Programme:

- To provide non-teaching staff with the knowledge and skills necessary to safely handle chemicals in their workplace, reducing the risk of accidents and chemical exposure.
- To educate non-teaching staff on fire prevention strategies, evacuation procedures, and the use of fire-fighting equipment.

Outcome of the Programme:

- Participants will understand the importance of chemical safety.
- Participants will be able to identify chemical hazards and access MSDS.
- Participants will know how to handle chemicals safely and use appropriate PPE.
- Participants will have practical experience in safely handling chemicals.
- Participants will understand the principles of fire safety.

By the end of this two-day training program, non-teaching staff should have a comprehensive understanding of chemical handling safety and fire prevention strategies, making their workplace safer for themselves and others. They will be better prepared to respond to chemical-related incidents and fire emergencies, ultimately contributing to a safer educational environment
